PROFESSIONAL SUMMARY

Software Engineer with **5+ years of experience** building scalable enterprise applications, REST API integrations, and business process automation for international clients. Proficient in Java, Python, JavaScript, and backend development on cloud-enabled platforms. Demonstrated track record of delivering production-grade features across the full Software Development Life Cycle (SDLC). Experienced in CI/CD tooling, cloud integration, and cross-functional remote collaboration. Open to full-time remote opportunities.

SKILLS

- **Backend Development:** Java, Python, Apex (OOP), REST API Design, Custom API Development, MVC
- **Frontend Development:** JavaScript, Lightning Web Components (LWC), HTML, CSS, Component-based Architecture
- **Database & Query:** SOQL, SQL, Data Modeling, Query Optimization
- **Cloud & Integration:** External System Integration, RESTful Web Services, Event-driven Architecture
- **DevOps & Tools:** Git, VS Code, Postman, CI/CD (Copado), Salesforce CLI (SFDX)
- **Methodology & Process:** Software Development Life Cycle (SDLC), Release Management, Cross-functional Teams, Remote Collaboration
- **Other Languages:** C, C++

CERTIFICATIONS

Platform & Developer Certifications:
- Salesforce Certified Platform Developer I (PD1)
- Salesforce Certified Administrator (SCA)

Engineering Superbadges:
- Advanced Apex Specialist
- Named Credentials Superbadge Unit
- Apex Callouts Superbadge Unit
- Salesforce Inbound Integration Specialist Superbadge
- Platform API Superbadge Unit
- Platform Events Superbadge Unit
- Apex Web Services Superbadge Unit
- Lightning Web Components Specialist
- Security Specialist
- Apex Specialist
- Process Automation Specialist

Other Technical Certifications:
- Laravel Web Development — SanberCode
- Python Data Science — SanberCode

EXPERIENCE

Salesforce Technical Consultant

VISEO ASIA | May 2021 – Present (5+ years)

- Designed and developed production-grade backend features using Apex and REST API architecture for enterprise clients across the region.
- Built and maintained custom REST APIs enabling seamless, automated data exchange between enterprise systems.
- Optimized backend processes, scheduled batch jobs, and database queries to enhance overall system throughput and reliability.
- Developed reusable component-based frontend interfaces using Lightning Web Components (LWC) and modern JavaScript to modernize user workflows.

- Collaborated with cross-functional international teams, delivering features across iterative release cycles with regional stakeholders.
- Applied software engineering best practices: clean architecture, security hardening, robust error handling, and performance optimization.

Key Projects:

Client	Region	Engineering Deliverables
Keppel	SG / VN / ID	Case Management System, Stacking Plan (component-based UI), Automated Email Reporting, Work Order API Integration, Auto User Deactivation API, Service Request & Digital Signature, Sustainability Process Automation
CapitaLand	SG	Batch data import system — bulk payment processing via custom component with backend validation
NTUC	SG	Web Contact Us form — case routing and customer inquiry automation
PaxOcean	SG / CN / ID	Ship Docking Management System, Calendar UI (server-rendered), Auto Date Calculation (scheduled job), Document Management (component-based)
PPIS	SG	Membership & Event management UI, Volunteer portal

EDUCATION

Bachelor of Engineering — Electrical & Electronics Engineering

Politeknik Elektronika Negeri Surabaya, Indonesia | Graduated: April 2021

Final Project: Built a real-time Object Recognition System for visual impairment assistance using Convolutional Neural Networks (CNN) in Python — achieved 92% detection accuracy on live video feed.

Diploma of Engineering — Electrical & Electronics Engineering

Institut Teknologi Sepuluh Nopember (ITS), Indonesia | Graduated: August 2018

Final Project: Designed a Microcontroller-based Coin Counter with automated payment tracking logic in C.

ACHIEVEMENTS

- ⭐ **Four Star Ranger** — Salesforce Trailhead (Advanced Apex & Platform Engineering track)
- 🥈 **Silver Medalist, PIMNAS 30 (2017)** — National Scientific Work Presentation, awarded by the Indonesian Ministry of Research and Technology

LANGUAGES

- GB **English** — Professional Working Proficiency
- ID **Bahasa Indonesia** — Native
